

IT HAPPENED TODAY

Plane Murder Try Ends In Jail Term

Manners & Morals

At Santa Monica, Calif. John H. Grant, 33, convicted of attempting to murder his wife, two children and three other persons by placing a gasoline bomb aboard an airliner, was sentenced to one to 20 years in prison.

The aircraft engineer, who told jury he was heavily drugged, nudged by his wife and in love with a pretty airline stewardess, was beneficiary of a \$25,000 insurance policy Mrs. Grant bought at his request before boarding the plane.

Alice Tykute, 22, learned her first day as a Chicago bank teller that the customer is always right — especially if he has a gun. Her first customer pushed her a note. It read: "Hand all the bills and don't yell or I'll kill you."

Mrs. Tykute turned to another employee, Mrs. Mildred Janda, who was showing her the ropes. "What do I do next?" she quavered. Mrs. Janda, holding a revolver in the customer's hand, said, "do what the man says." Janda escaped with about \$1,000.

World

Switzerland is planning to buy or build 150 medium tanks at a cost of \$112,000,000, it was announced at Bern.

Bodies of five men were found in a stream north of Manila today. Authorities said they might be the bodies of the men of Santiago Villanar and his bodyguard, who vanished last week. Mukhabalat guerrillas were believed to have killed them.

At Melbourne, Australia, Gen. George Kenney, wartime American commander of the allied forces in the Southwest Pacific, said arrangements may soon be made for American and Australian forces to exchange dead and personnel.

Opening the Dutch States General (Parliament) Session at the Hague, Queen Juliana said: "On the free people rests the task to ensure collective security in closest co-operation and to protect the costly heritage of liberty against any possible assault from without and undermining action from within."

People

Jack Denney, 56, a popular band leader, visited World War II who struggled heroically through campaigns in Canada and the United States, died in a Los Angeles veterans hospital. He had been employed since the war as a piano salesman.

WASHINGTON—The Senate confirmed the appointment of

former mayor William O'Neven

as the new U.S. ambassador to Mexico.

Dr. Herman N. Sander led a party of 30 volunteers in a search for his 20-year-old son who disappeared when taking a bush plane to the woods. The Candis, N.H. physician, aquainted of murder last March in the "murder mystery" of a woman cancer patient, was summoned by the family of Helen Macleod who left her home yesterday afternoon with her dog. The dog returned to the house alone two hours later.

Britain

Government's bill to extend military service of conscripts in Britain from 18 months to two years became law when it received Royal assent after being passed by the House of Lords. It was passed by the Commons last week.

London will soon have an "exchangeable" slum where mature-born children from any part of the city to a specially equipped slum where they can accommodate 14 children and operate day and night.

At Stoney Castle Square, Eng., a mine-detecting squad received a message from a mine to reach two British soldiers killed by an explosion. They had been killed in a mine field, though it was wired off and marked with warning notes.

Miscellany

Piermen received an emergency call to a London, England, pier where a fire-fighting equipment to find that they were required to return to the pier. Fire-fighters of the pier, called "Piermen," were required to return to the pier. Fire-fighters of the pier, called "Piermen," were required to return to the pier.

Put on their mettle, the firemen were awarded a gold medal to an operating cable, and while Cheryl, a German Rhineland vineyarders are expected to produce a record 100,000 gallons of wine this year. But the year's vintage is likely to be light and slightly dry in taste due to late autumn summer sunbath.

Julius Ollas who received two telegrams from the U.S. defense department, saying he was second one to correct. Last month the Grand Forks, N.D. resident received a telegram saying the son, Robert, aged 18, was killed in action in Korea. Last week he received a message saying that his son was wounded slightly and returned to duty.

North Alberta Town

In Path of Bog Fire

(Continued from Page 1)

We were real scared because the ground is all mucky and it can catch fire anywhere.

"The bog was everyone was beginning to think about getting out, the wind suddenly changed," Mrs. Driscoll said. "It was a wonderful sight—I can't describe how we felt. You could see the line of flame starting to move back."

'ALL THANKED GOD'

"We all thanked God we had been saved."

Last night patrol maintained constant vigil as the fire along boggy red on three sides of the village, threatening the giant charged bog of the forest.

Here and there flames flared a hundred feet as the rebarred ground fire moved forward to engulf another tree. The still of the bog was disturbed by the rumbling of the monster who has become almost a living thing in the minds of the people. Occasionally there was a crash as a tree fell in a shower of sparks.

Today an eerie twilight is caused by the pall of blinding, choking smoke hanging over the flames. The night was disturbed by the wind which would not allow the flames still burning with low intense heat which charred the trees.

THERE'S NO PANIC

"This fire may burn for months. We've seen them burn all winter before the snow," said Eddie Pollard, elevator agent. "We've got to keep it in the ground where we can go after it with bulldozers and shovels."

There has been no panic. Even at the height of the holocaust yesterday, classes continued in the school. The blaze was only two blocks away and sparks falling in the principal's garden.

"We watched it through the window and it was just a scary sight," said 15-year-old Max J. Pollif, the teachers told it looked worse than it was so we kept right on working. I guess there wasn't much we could do about it anyway."

"But for a while I thought the old devil really wanted to cook us, and I guess he will some day," also said.

The people of Newbrook have taken the threat calmly—but there is panic in the hearts of the wild life in the surrounding country.

Hundreds of rabbits, prairie chickens and partridge have sought refuge in the area of safety about the town. Doves are seen in gardens in the village.

Two hundred people are fighting the fire.

Bulldozers and road machines are piling dirt against the forest in a desperate bid to hold the fire back between the endangered village and the creeping menace. Men from the RCMP detachment at Thorhill have organized the struggle.

"If the wind increases from the west, then God help us," one of the townspeople said.

"There is nothing more we can do," said Ed Pollard, postmaster. "The fire has caught hold of the muck and we can't put it out."

They ordered the arrest of Alfred de Marigny, Sir Harry's son-in-law. The trial that followed became an emotional storm. Nancy Oakes stood by her husband. Herons to millions, she spent all the money available to her at the time—about \$50,000—to prove that management evidence offered by Barker was legally false.

DE MARIGNY FREED

"Lady Oakes, Nancy's mother, who was the trial that followed became an emotional storm. Nancy Oakes stood by her husband. Herons to millions, she spent all the money available to her at the time—about \$50,000—to prove that management evidence offered by Barker was legally false."

De Marigny was freed, but the jury which acquitted him recommended that he be deported from the island.

(Continued from Page 1)

Mr. Pollard's home and post office is situated on the west side of the railroad tracks, directly in the path of the oncoming flames. His house will be the first to go if the fire gets out of control.

When the fire swept toward the village, farmers worried about their stocks lying unprotected in nearby fields.

Newbrook has no firefighting equipment and its only source of water is a few limited wells.

In the absence of her husband, Mrs. Fred Driscoll braved the clouds of heavy smoke to pluck the stocks from their field into saving rags.

With the aid of the RCMP, again from the threatened village, was carried to protected areas. Minutes later, the flames swept across the field, leaving nothing but charred ruins in its wake.

FIRST TO SEE FIRE

"I was down by the lake Monday morning about nine o'clock watching the cow, and I couldn't see any sign of a fire," said Mr. Pollard. "Thus about noon my wife looked out of the upstairs window and saw there's a fire right on the lake."

"I guess we were about the first to see it."

"We got in touch with Jack Saker and Mac McDonald of the department of public works. It was just lucky they were working on the highway through Newbrook or we probably would have lost the whole village."

A few minutes later, Cpl. K. J. Trimble and Const. W. J. Smith of the Thorhill detachment of the RCMP came and really got things organized."

USE HEAVY MACHINERY

A small army of fighters, with heavy road machinery, rummaged into the danger area and gouged the porous muck from the ground until here soil between flames and homes.

Wearing wet handkerchiefs and respirators to combat the choking fumes and smoke, the men worked far into the night, keeping vigilance over the unpredictable fire.

Within the town, a lumber dealer, fearing for his lumber supplies, moved his whole shipment from grass to a hard dirt surface.

Everyone passing near the elevator paused to glance at two steel drums nearby.

They are loaded with gasoline and rest on a pile of sawdust. Residents shudder and hope.

In the center of the smoldering fire.

Enemy Attack Said Unlikely Over Arctic

(Continued from Page 1)

NEW YORK, Sept. 18.—(AP)—"I think we're alive now to the urgency of the situation that confronts us."

Saying that he felt it was necessary to admit Winston Churchill to "some kind of association" with the rest of western Europe, he said he opposed building up a German army under German command.

He replied that his talks with military men gave him the impression that an attack over the Arctic is not now considered as likely.

He said these opinions apparently were based on the "scale of attack necessary for such an operation."

Asked about comments on Canadian response to the call for U.S. forces in Korea, Pearson said Canada had not been able to send ground forces immediately because "it would have upset all our military plans."

He said a small force now being trained would go to Korea as soon as the situation permitted and in force with Canadian naval and air forces in the fighting "I don't think any."

By late yesterday evening, flames had crept to the western edge of the village, jumping over fire breaks in places and smoldering near the railroad tracks.

The fire swept burning embers into the air, and Newbrook residents, armed with wet rags, extinguished the coals as they landed within town limits.

As night fell, renewed breezes carried the choking smoke into every home and the red glow on the horizon reminded everyone of the menace surrounding the village.

Alberta Nc. 2 Spender For Post-Polio Cases

More money is spent for post-polio myelitis treatment in Alberta than in any other province in Canada with the exception of Ontario.

To date \$28,814 has been paid and a cheque for another \$1,000 will be presented to the University Hospital at a Canadian Foundation for Polio-myelitis meeting in the Trocadero Thursday, said Horace Brown, Toronto, executive director and founder of the organization.

Mr. Brown, himself a polio victim, now on a tour of western Canada, arrived in the city yesterday from Winnipeg where a Manitoba chapter of the organization was formed.

Purpose of his visit is to stimulate the activities of the city chapter and confer with officials on increasing activities.

71 GET AID

Since May of this year when cases have been handled by the Foundation more than 71 victims have received aid, he said.

Through polio cases are down all over Canada research shows it goes in cycles, as was indicated by the inexpressible, click-bell in Quebec on the boundary of Labrador recently when a whole village was stricken, Mr. Brown pointed out.

"Even if there were no more cases it would take 10 years to eliminate the effects entirely," he said.

ALUMINUM COMPANY OF CANADA, LTD.

President and Promoters of Alcoa for Canadian Industry and World Markets

Plants at Sherridon Falls, Arvida, Les Bouches, Shipshaw, Port Alfred, Wakefield, Kingston, Toronto, Etobicoke

IN 50 YEARS ALUMINUM HAS GROWN TO BE A LARGE PART OF CANADIAN LIVING

Shipshaw No. 2 puts a river to work

"Daddy, what makes it hum?"

"HARRISON BAINBRIDGE, BOONY!" It's a true answer...

In Shipshaw powerhouse you are awed by the hum of twelve gigantic generators. They are driven by rain and snow which fill Lake St. John and pour down the Saguenay River.

The water is channelled to a main intake on top of a hill. Then it rushes down tunnels chieftained through solid rock to dash against turbines like the model which the boy is peering—yet weighing 50 tons.

The turbines drive generators. The electricity they generate speeds to nearby Arvida. There is less shining aluminum out of bauxite from British Guiana.

Over 1000 Canadian companies form aluminum into all sorts of useful articles. All this means work for Canadians. This country supplies nothing but the raindrops—and the brains, hands and enterprise to harness them.

The hum in the power house at Shipshaw is a hymn of progress. It is a sound of Canada's standard of living going up...

DAY BY DAY

Butter Prices Jump Upward Once Again

Edmonton housewives yesterday began paying one cent more per pound for butter.

According to dairy officials here, retailers are now paying 86 cents a pound wholesale for first grade, 81 cents for second and 48 for third, a one cent increase in each case.

The increase is being passed on to consumers.

Approximately 250 eastern Canadian Chamber of Commerce members tomorrow will make a brief stop in Edmonton aboard a special C.N.T. train en route to their eastern homes.

Members attended the annual Canadian Chamber of Commerce meeting held in Banff last week and then visited Vancouver. Trains will arrive at 10:30 a.m. and leave at 4 p.m.

The 20th Heavy Anti-Aircraft Regiment will parade at 8 p.m. at the Prince of Wales Armoury tonight. Pay parade will also be held.

Miss Ruth Douglas has been appointed recreational director of the Kiewit Children's Home for 1950-51.

The announcement was made today by C. V. Humphreys, chairman of the house's board of directors. Miss Douglas, who has had extensive training in Canada and abroad, assumes her duties at once.

Clyde's first polo case has sent a seven-year-old girl to an Edmonton hospital. Victoria Koleswki, a school girl, was brought into the city yesterday.

The coroner's inquest into the death of Bob Shrigley, 25, who died in a hunting accident near Veda on Sunday, was adjourned in Barnhead yesterday until Wednesday.

Shrigley was walking over rough ground near Veda with a companion, John Reacher, Sunday afternoon, when he stumbled. To raise himself, it was said, he grabbed at a rifle carried by Reacher. The rifle went off, and a bullet entered Shrigley's temple, killing him instantly.

McKenna Community League yesterday elected a new slate of officers, headed by president Alex Clima, who succeeds Phil Popper. Others named to the executive were Gerry Bright, vice-president; Fred Helgeson, secretary; Frank Meaton, treasurer; Frank Hasty, building chairman; M. Peters, social; Sid Dineen, civic; Dan Cameron, publicity; Bill Frost, education; David Ellis, recreation; Carmen Edgson, membership; Jack Butler, new members.

League's next general meeting will be held in McKenna Hall, Oct. 2.

Dr. L. A. Kilburn, director of dental services for Department of Veterans Affairs, Ottawa, is in Edmonton today on routine inspection tour of district offices.

He is conferring here with Dr. W. E. Adinelli, who heads OVA dental services in the Edmonton district.

Hon. C. E. Gerhart, provincial secretary and municipal affairs minister, will leave Edmonton tomorrow to attend a joint Canadian and American civil defence conference at Helena, Mont.

Mr. Gerhart is chairman of the Alberta civil defence committee.

News Service Set
MANILA, Sept. 18.—(AP)—Five Manila papers today announced plans to open a Philippines news service about Oct. 1 under direction of Baldomero Olivera, formerly President Elpidio Quirino's press secretary. The service will be on the co-operative principle.

You will be delighted with this fragrant tea

THE BANK OF TORONTO

BIG ONE that didn't get away is 17-pound jackfish caught in Jackfish Lake, 25 miles west of Edmonton last Sunday. Local experts say lake has more of the same "if you can catch them." Caught was made by John Townsend, son of G. Townsend, 11401-97 street, the man in the picture.

Drive-In Banks Tried In Vancouver, Montreal

Bank of Montreal has opened 80 new branches in Canada since the end of the war and is now experimenting with drive-in banks in Vancouver and Montreal.

This was learned here today from Ernest E. Rutherford, Montreal, assistant general manager of the Bank of Montreal in charge of western regions. Mr. Rutherford also revealed that \$350,000 has been spent in modernizing and enlarging the main branch building in Edmonton in the past year.

OFFICIALS ALONG

Here with Mr. Rutherford are Ruth B. Purdy, director of the bank, and L. L. Sinclair, superintendent of Alberta branches both of Calgary. The officials are conferring here.

Synod to Send 12 Delegates To Des Moines

An officially elected delegate of the Western Canada Synod of the United Lutheran Church in America, Herman Minchau, Rural Route 2, Box 162, South Edmonton, will attend the biennial convention of the body in Des Moines, Iowa, Oct. 4-12. The business sessions of the national convention will be conducted by the Rev. Dr. Franklin Clark Fry, president of the U.L.C.A. One of 12 persons representing the local synod's 8,000 members, Mr. Minchau will be among 2,000 delegates, guests and visitors. He is a former in South Edmonton.

Other Alberta delegates to the convention will be Philip Purpur, 825 99 street; Rev. G. Becker, R.R. 2, South Edmonton; and Adolf Shier, Spruce Grove.

EDMONTON BULLETIN, Tuesday, Sept. 19, 1950

Completion Near For Big Pipeline

Welding Crews Putting Final Touches On Canadian Section

Construction of the 775-mile Canadian section of the 1,127-mile Alberta to Great Lakes oil pipe line was nearing completion today as crews started final tie-in welds at several points along the route.

The International Pipe Line Company said that apart from some backfilling and right-of-way clearing this brought actual construction of the pipe line in Canada within a few days of completion. Crews on the 325-mile section of pipe line in the United States have several weeks of work to complete the pipe line there.

Some of the heavy machinery and key personnel brought to Canada for the job already have started back to the United States from points where their part of the job ended.

Completion of the pipe line before Sept. 26, the target date set for the contractors in Canada, has made it possible for International to plan operation of that part of the system between Edmonton and Regina on Oct. 4.

PUMPING UNITS

On the date temporary pumping units at the Edmonton pump station will be ready to start filling and testing the Edmonton-Regina section of 430 miles of pipe. When testing is completed the temporary units will continue moving crude into Regina refineries until the main station at Edmonton is completed. First deliveries should be made in Regina about Nov. 1. That will mark the first time

Traffic Halted By Fire Hoses

A faulty sprinkler system at Jasper Bowling Alley, 97 street and Jasper avenue, brought four fire engines from No. 2 hall into action shortly after 8:30 a.m. There was no fire.

The alarm caused many Edmontonians to be late for work as firemen stretched firehoses across Jasper avenue, halting all west-bound traffic.

RESERVE FORCE TRAINING IS LEADER TRAINING

The Reserve Army of Canada is formed and basically organized to train young men for leadership. The diversified training of the Reserve Forces is constantly preparing men in the important subjects that are aligned with Canada's Defence. The training they are taking now will permit them to take key positions and responsibilities if the occasion ever demands it! The trained man is qualified for higher rank — for more pay — trained and ready for the bigger positions in the Armed Forces.

The Reserve Forces in this area want to train young men with initiative and intelligence in the study of Canada's defence. There are many arms of the Service in which you can serve.

Whether you choose Engineers, Infantry, Armoured Artillery, Army Service, Medical, Ordnance or Signals... there is a place for you for leadership training.

This week is

PHONES TOP \$1 MILLION IN REVENUE

City telephone system revenue to date this year passed the \$1,000,000 mark. A weekly report issued today by Superintendent Robert Christie shows total receipts to Sept. 14 at \$1,010,138. At the same date last year, collections stood at \$868,675. Total number of phones in service are 38,358, compared with 32,029 at the same date in 1949.

Ex-City Man Gets Remand

LONDON, Sept. 18.—(AP)—Alan Grant Dafoe, 29-year-old accountant from Edmonton, today was remanded for two weeks on his own surety of \$100 (\$50). The remand was granted in a London court on condition Dafoe surrender himself to police in Edmonton for trial on charges of forgery. Police said Dafoe, working in Worthing, Sussex, admitted cashing five or six cheques for about \$500 while employed by an Edmonton lumber company. Arrangements are being made to fly Dafoe to Canada.

Elections in Liberia must be of Negro blood.

3 reasons why you'll like to fly WESTERN

1. You get there in minutes instead of hours on Western's shortest flight.
2. You'll settle back in a comfortable white reclining seat — and relax.
3. Don't worry about rain or snow. Western flies "over the weather."

Don't Shelve Our Over 45's

What are we going to do with our over-40 workers?

This question must be faced, unless Canada's economy is to suffer a major dislocation.

A growing aversion to hiring workers over 45 years of age already promises to determine the economic standard of living, and presents a threat of increased taxation burden on the narrowing group which remains—the group considered employable.

Production of goods and services is being reduced because an increasing segment of business and industry is arbitrarily putting a large section of its potential working force on the shelf.

Our population is gradually growing older, and the proportion of over-45s is rising.

With 800,000 now in that category, the number is expected to reach 5,000,000 in 20 years.

In Edmonton alone right now, more than half the 670 male job seekers, and 10 per cent of female job applicants, are in that group.

National Employment Service officials point to current surveys and wartime experience to refute employers' claims that hiring older workers lowers production, increases accidents, gives trouble over new techniques, are employed, and increase pension and group insurance costs.

Apart from the recognized fact that older workers are generally more stable workers, wartime experience conclusively proved that their steadiness more than compensated for somewhat faster work by younger men and women.

Statistics show that the greatest accident rate occurs in the 20-24 age group, and not among older-timers. Fewer accidents mean more production and lower costs, as well as less time lost.

Group insurance rates rise only \$1.58 per thousand between the 25 and 40 age categories.

When a man or woman reaches 45 years of age, he or she still has 20 good, productive years ahead, a great many more than those 40 years are the best.

But when a country's very economy is in danger of being shaken by a groundless misconception, industry would do well to re-examine the policy which puts "No one over 45 need apply" in its help-wanted notices.

Life's Darkest Moment

THE BABY IS SOUND ASLEEP NOW, AND PROBABLY WON'T WAKE UP BEFORE WE GET BACK. SO, YOU MIGHT WHILE AWAY YOUR TIME WASHING THE DISHES. WE'LL BE GONE IN AN HOUR.

THE BABY SITTER AT FIFTY CENTS AN HOUR

By Webster

Jack Scott

Campbellton, N.B.

Has Race Issue

(Columnist Jack Scott is on a cross-Canada tour with his family in automobile and trailer—EDITOR.)

CAMPBELLTON, N.B.—Stand on any one of the playgrounds of the three public schools of Campbellton this crisp autumn morning. Look out to the Miramichi River, which separates New Brunswick and Quebec, and beyond, the blue and sparkling Bay of Chaleurs.

Your gaze encompasses the scene of the last bloody naval battle between French and English.

Out there on the broad, quiet river in the spring of 1704, a British fleet under Commodore John Byron, known as "Old Weather Jack," met and destroyed the

frigate Le Marchant and five merchant ships under the command of one Captain La Giraud, sent from France for the relief of Quebec.

They say that when the tide is low the bleached skeleton of Le Marchant is still visible through the clear water of the Restigouche.

Battle Not Ended Yet

But there's a much more tangible relic of that ancient war right there on any of the school grounds of Campbellton.

For here the war is "Old Weather Jack" met and destroyed the English and about 200 years after the last cannon fired, you may see Canadian boys and girls

separated by race and religion, in Campbellton there is a tragic segregation of the children.

Each of the eight grades in these public schools are divided into three distinct classes.

There is a class for boys and girls who are French Catholics. There is a class for those who are Irish Catholics. There is a class for the English-speaking Protestants.

They say that when the tide is low the bleached skeleton of Le Marchant is still visible through the clear water of the Restigouche.

Don't Want To Be Quoted

I spent all of yesterday fruitlessly trying to find a Campbelltonian who would consent to be quoted on the subject. In the capital of New Brunswick, I found there is the same conspiracy of silence. No one dares speak this mind to the growing power of the French.

Yet, curiously, many French see the war as "Old Weather Jack" met and destroyed the English businessman told me, "It's an awful compromise that can only bring harm."

There is a class for boys and girls who are French Catholics. There is a class for those who are Irish Catholics. There is a class for the English-speaking Protestants.

They say that when the tide is low the bleached skeleton of Le Marchant is still visible through the clear water of the Restigouche.

Want Change In Curriculum

The French-Canadians who feel that this is a minor victory are still far from satisfied. They only wish to see the curriculum in one I talked to put, "to maintain our own traditions and not to be swayed by the British."

News of India Is Significant

Sometimes the most important world news does not get reported in our papers; or else gets buried in three or four-line items on inside pages.

The recent upset in politics in India is of great importance. The story is in the political arena.

For many months there has been a struggle for power going on between Prime Minister Nehru and his conservative Vice-President, Sardar Patel.

This came to a head in the recent elections for the executive positions in the Congress Party.

Nehru backed J. B. Kripalani for the Presidency. But Kripalani was defeated by Sardar Patel.

These are the kind of "language" that Nehru uses to attack the British.

India's Position Is Weakened

The main effect of the Nehru setback will be to weaken India's position in the United Nations and in international affairs.

We have already seen a spectacular example of this in the case of the Chinese who refused to go to the United Nations to accept a peace-making mission or to be a member of the UN Assembly.

Now it is definitely announced that India's first general election will be a few months away, and with the "machinery" of the British in the hands of the British, Nehru will have to meet the British in the hands of the British.

Another unfortunate result of the Nehru setback will be to teach the chances of a conciliatory settlement of the Kashmir dispute.

If Nehru had only to consider how to reach some sort of agreement with the British, he might have been able to reach an agreement with the British.

But now the hard-boiled old boys are back in the saddle, and the British are back in the saddle.

But now the hard-boiled old boys are back in the saddle, and the British are back in the saddle.

Let's Cut Senseless Slaughter of Hunters

Carelessness has already started taking its seasonal toll of hunters.

The opening-day barrage had barely subsided when reports of the first deaths reached in.

Of all accidents, those which happen to hunters are probably most tragic and most reprehensible, because they are practically all preventable.

No nimped ever sets out deliberately to cause an accident.

No nimrod would dream of intentionally causing a companion's death or serious injury.

But every time the shooting season gets under way, first with migratory waterfowl, then upland game birds, and finally with big game which need no hunters killed or injured mounts inexorably.

Every case can be traced to disregard of simple rules which should govern the actions of every person who ventures

afield with shotgun or rifle.

These are:

1. It's always the "unloaded gun" which kills people. Treat every firearm as a loaded one, at all times.

2. Never point a gun at anything you don't intend to shoot.

3. Never enter a vehicle, boat or building without first "breaking" the gun or carrying it with the action open.

4. Never carry a loaded gun in any vehicle.

5. Always carry a gun so that, if you stumble, you can control the direction of its muzzle.

6. Always be absolutely certain of your target before pulling the trigger.

7. Don't climb fences or other obstructions with loaded guns.

8. Be sure the barrel is clear before you shoot.

9. Never shoot at water or any flat, hard surface.

10. Gunpowder and alcohol don't mix.

Streets

Back Up?

Editor, Bulletin—Almost daily one sees items in the newspapers referring to traffic regulations, and the frequent violations of

them. I am wondering what, perfectly sober drivers of autos, or trucks, are supposed to do, if, and when they see a street "Back Up?"

Now, I have seen streets go down hill, go up hill, turn corners, and even come to "Dead Ends," but I have yet to see a street "Back Up."

I never knew that autos were able to "Look," but I do know that one cannot judge all autos by their "Looks."

On the southwest corner of 11th Avenue and 8th Street, attached to a pole is a sign—the sign is time and weather-worn, and in its present state it reads "Auto Look for Street Backing Up."

When one stands close to the pole one can see that the original wording of the sign must have been "Caution" (in red—now faded) "Auto Look for Street Backing Up" (in red—now faded) "Back Up."

Probably the STS is so dead against Communism, that it no longer uses "Red" paint, even for its "warning" signs.

All jokes aside, I think the sign in question should be replaced in order that it be in the real service of time and weather-worn, and in its present state it reads "Auto Look for Street Backing Up."

This Bank Needs Your Deposit

One bank in which every able-bodied citizen should be making regular deposits is the Red Cross blood bank.

Periodic contributions will help save a life—and it may be your own.

The blood transfusion service is on the job 24 hours a day, providing whole blood and plasma free to all who need it.

But to maintain adequate stocks of life-giving blood, the Red Cross needs

10,000 voluntary donors, willing to give a small amount of blood once a year.

You never know when an accident or other emergency may strike you, your loved one, or your friends.

A life may hang in the balance, and you can make sure the balance swings the right way.

Simply contact the Red Cross blood transfusion service by phoning 27522, and register as a regular donor.

PITCHING HORSESHOES

In Pedagogic Nightmare

Miss McNeill Visits Wil-iam

At 1 o'clock this morning, after 16 hours of making life as a teacher, I finally came to bed, but instead of getting the sleep which refreshes, I found myself up on the edge of a nightmare.

I was seated at my desk trying to figure out some new exercises for my class, when I heard a knock on the door.

When I opened the door, I found a Miss McNeill standing there, looking at me with a strange expression.

"Tell her the Billy Rose school is Friday," I said.

"This one has grey hair," she said, looking at me with a strange expression.

"The phone girl," said I, "and you for one of her pupils in P.E. class back in 1910."

"Oh, that was not I," she said, looking at me with a strange expression.

"When the old schoolmaster walked in carrying her umbrella before her like a bayonet, I was standing behind my desk, shut in from one foot to the other."

Looking As Guilty as Ever

"You may be asked, Billy," she said.

"Is a pleasure to see you again, Miss McNeill," I said. "Is there any little thing I can do for you like getting a pair of tickets for South Pacific?"

"You haven't," she said, looking at me with a strange expression.

"You said that and don't know what to do with your hands. What's more, you look as guilty as ever."

"Yes, Ma'am," I said, turning a good pink. "I mean, no, Ma'am. I mean I'm not looking guilty."

"My relative use their eyes to see this thing," she said, looking at me with a strange expression.

"Anyhow, this is certainly an unexpected surprise."

"Independent as usual," said Miss McNeill reproachfully. "It's a thing is a surprise, it can't be expected. But let me explain why I'm here. Several years ago I finally gave up teaching and ever since I've been a housewife."

"I'm sure I remember most of the things I taught them."

"I'm sure I remember most of the things I taught them."

"I'm sure I remember most of the things I taught them."

"I'm sure I remember most of the things I taught them."

HAS 30 POINTS

Curtis Leads Big Four Scoring Race

TORONTO, Sept. 19.—(CP)—One newcomer to Canadian football has nudged another out of first place in the Big Four scoring race.

Statistics compiled by the Canadian Press show that Curtis Curtis of Toronto Argonauts has displaced Edgar (Special Delivery) Jones of Hamilton Tiger-Cats as individual leader.

Curtis, Negro halfback from Florida A. & M., got two touchdowns Saturday to bring his total to six majors for 30 points, three points more than Jones, formerly with the professional Cleveland Browns. Jones had been in front since the season opened.

A Canadian, Bill Larchelle of Ottawa Rough Riders, ranks third. Larchelle, native of Chatham, Ont., and former Olympic runner, got two touchdowns Saturday to bring his season's figure to five for 25 points.

Bill Gregus of Hamilton Tiger-Cats, one of the few crop of U.S. imports, shares fourth on 20 points with Virgil Wagner of Montreal Alouettes, an American who has been in the Big Four since 1946. Wagner has four years the union's top touchdowns-per-game, got three Saturday to get the running for his fifth consecutive scoring title.

Johnny Chorostek still tops the Ontario Rugby Football Union although he and his fellow Sarnia Imperials have to share the scoring lists with two Windsor Rockets for the first time. The rockets got six points against Sarnia last week, but they scored this season by any other team than Imperials.

Chorostek added five points for a three-game total of 15. McKee of Sarnia ranks second with 13.

Hoop School For Juniors

City Junior and Juvenile boys' basketball squads, on the whole, play a smooth, fast and smart game, but they have a chance to get better.

City Recreation Commission, in cooperation with the RCMP and Edmonton District Basketball Association, will hold a basketball school for boys under 25 years of age as of January 1, 1950.

The school, open to all boys interested in basketball, will be held in the RCMP gym on Friday nights and conducted by members of the senior league.

It was also announced last night that the EDBA will take over the City Juvenile Basketball league this season. Last year the juveniles were under the jurisdiction of the Recreation Commission.

"Teachers" at the school will be Dale Main, Roy Chobyluk, Jack Conroy and Jim Milne. All boys attending the school are requested to bring their own equipment.

Middlecoff Wins Playoff

ST. LOUIS, Sept. 19.—(AP)—Curly Middlecoff of Ormond Beach, Fla., won the \$15,000 St. Louis Open golf championship yesterday in a "sudden death" playoff with Ed Purdy of Ormond Beach, Fla.

Middlecoff, winner of last year's U.S. open, snatched the St. Louis title on the second extra hole with a birdie three. The victory pays \$2,800. Oliver gets \$1,000.

The two tied for low in the final round Sunday at 270, 19 under par.

VICTORIOUS CNR junior baseball team whoop it up last night after arriving home with provincial championship. Trainers earned the title at Rosedale last weekend, defeating the Midways of that town 3-1 in the best-of-five series.

CNR Returns to Edmonton Minus Championship Cup

By Ernie Federuk
Manager Lou Hiatt and his CNR baseball team arrived back in the city last night with the provincial junior baseball crown.

But despite the happy welcome greeted them as they stepped off the train, there was something lacking—a cup.

An oversight by some member of the Rosedale team, who CNR beat for the Alberta title, prevented Hiatt with returning with the prize mug.

So after 21 years without the cup, Edmonton may have to go along without it again in spite of CNR's triumph.

The champions were greeted by being-major Dick Hanna, members of the Alberta Amateur Baseball Association and a disappointingly small number of fans.

President Carpenter said the Phils will sell tickets to single games and that the ducks won't be handled in a three-or-four game block as other clubs have done in the past.

"This way," Carpenter said, "I'll be giving about \$2,000 a game an opportunity to see the world series instead of \$1,000." There are 25,000 seats at Shibe Park and no standing room will be sold.

The Phils have not yet clinched the pennant, but hold a 7-4 game lead over Boston Braves with only 12 games to play.

Carpenter said applications must be accompanied by certified checks or money orders with the name and address of the applicant written in the upper left hand corner of the ticket request.

Applications should be sent to the Philadelphia National League Club Box 8525, Philadelphia 26, Pa.

Box seats will be sold for \$25 each, and a \$100 table for 25. Bleacher seat tickets of \$1 each will be sold at the ball park.

Carpenter said that under the

Vancouver Seeks Frank Brimsek

VANCOUVER, Sept. 19.—(CP)—Vancouver Canucks are negotiating with Chicago Black Hawks—so far unsuccessfully—for goalie Frank Brimsek.

This was reported yesterday by Coley Hall, owner of the Pacific Coast Hockey league Canucks, who are scheduled to open training sessions Friday.

Brimsek, who played for several National Hockey league seasons with Boston Bruins, was purchased last year by the Hawks.

"I know Frank wouldn't come for a dollar and a promise," said Hall. "But I am prepared to pay him a salary which shouldn't be hard to make."

Hall said he was willing to buy Brimsek outright or take him on loan.

LAWN BOWLING

ALBERTA AVENUE CLUB
Tuesday 7:30 p.m.—Trophies.
Friday 7:30 p.m.—Doubles.
Saturday 7:30 p.m.—Trophies.
Sunday 7:30 p.m.—Trophies.

Phillips' precedent-breaking plan. Tickets will be sold for the sixth and seventh games as well as the first and second and that money will be refunded provided the sixth and seventh games are not played.

If the Phils win the National league pennant and there is no playoff necessary in the American league, the series will open at Shibe Park, Oct. 4.

There have been times in the past when genial Eddie was alternated with the ax. Like in 1947, when his favorites were limping along in the cellar. The Sun then owned the club then and Braden was a man who knew baseball and a man who knew Eddie and a man who knew the ax.

But the Cardinals have not been out of the first division since 1938 and it is natural that the current slump should revive whippers of Dyer's removal.

"I said in the spring that if I had available the players and pitchers as long as I wanted them, we'd be in the thick of the race," Dyer explained the

tailspin. "Well, you have to expect injuries, but with us they happened to key players like Joe Garagiola and Ted Wilks. Take Marty Marion, why he shouldn't even be playing with that bad knee, but we just don't have replacements."

Dyer won't say it, but the real blame for the Cardinals slump could and should be laid where it belongs—with the front office. While the parent club has had it crying need for able replacement, the youngsters who could have turned the trick are kept with farm teams which are in their own pennant races.

Rochester, one farm club, has five players who were on the International league all-star team—including the Loop's most valuable player, Columbus, another farm, had three men on the American Association all-star team. But there they stay—and so with Dyer it's "wait 'til next year."

Meanwhile, don't bet that the "skipper" won't be back.

ST. CATHARINES, Ont., Sept. 19.—(CP)—Right-winger Bill Ezinicki failed to show up for the opening of the Toronto Maple Leafs hockey training session here yesterday.

General manager Conn Smythe said it "looks like Ezinicki has body-checked himself back to the fourth or fifth line." Smythe added he doesn't think the team will miss Ezinicki if he doesn't show up.

Observers suggested the rightwinger "doesn't want to play hockey this winter or that he would like to get himself traded. During the summer Ezinicki acted as a golf pro at a club in New York state.

WCJHL MEETS ON LOCAL TEAM NEXT WEEK

MOOSE JAW, Sask., Sept. 19.—(CP)—The semi-annual meeting of the Western Canada Junior Hockey League will be held next Monday and Tuesday in Lethbridge, J. Harper party, league secretary-manager, announced last night.

A main item of business will be an application to admit Edmonton for admittance into the sixteen circuit. It now comprises Regina and Moose Jaw in Saskatchewan and Medicine Hat, Crow's Nest Pass, Calgary and Lethbridge in Alberta.

Edmonton interests served notice at the league's annual meeting in Banff, Alta., earlier in the year that they will seek a franchise.

Wings Eliminate Jersey City
ROCHESTER, N.Y., Sept. 19.—(AP)—The pennant-winning Rochester Red Wings gained the first round of the International league playoffs last night by whipping Jersey City Giants 7-3. It gave Wings the best-of-seven semi-final series 4-2.

Boxer Belt Tigers Second Day in Row

NEW YORK, Sept. 19.—(CP)—Boston's flaming Red Sox seared Detroit's Tigers yesterday for the second straight day with a ninth-inning, 3-2 victory that sent the Sox within one game of the American league-leading New York Yankees.

A two-run rally in the ninth and another superb relief job by heart-throbber Ellis Kinder carried the Sox to victory and into second place past Detroit. Boston now leads Detroit by a half-game in the hectic race.

Yanks were idle. A looping single by Walt Dropo and a fly out by Bobby Doerr drove home Newhouse's three-run second place past Detroit.

LUCK HELPED
Trailing 2-3 going into the ninth, Red Sox struck swiftly and were given a helping hand by Lady Luck. Billy Goodman, the league's leading hitter, whacked Hal Newhouse for a single. Ted Williams, hitless all day, got a hit with a high chopper in front of the plate.

When Newhouse threw out Don Kolloway at first, Goodman raced to third. Then—wonder of wonders—Williams stole second as Newhouse took a full wind-up. The veteran left-hander was yanked and replaced by Hal White. White intentionally passed Vern Stephens to lead the bases.

Dropo's single scored Goodman with the tying run. Doerr, who had slugged home Boston's first run in the second inning, filed to center to score Williams.

Now it was up to young Willard Nixon, who had pitched since the third inning, to hold the vital lead. He threw three balls to Joe Ginsberg and that was all.

Manager Steve O'Neill called for the 36-year-old right-handed pitcher, who had pitched in the last four consecutive games.

Kinder tossed two strikes but finally walked Ginsberg. Pinch hitter Pat Mullin sacrificed Ginsberg to second. But Kinder got the out.

Most Students 'Nearly Pagan'
TORONTO, Sept. 19. (CP)—Canadian university students need missionaries just as much as the people of India and Africa do, Rev. James H. L. Puckley said today. Mr. Puckley, secretary of the Student Christian Movement in Canada, told the general council of the United Church of Canada that it had been estimated that more than 60 per cent of Canadian university students are "practically pagan."

U.K. Taking Stock Of Needs At Home

Export to Russia, Europe Suspended During Checkup

LONDON, Sept. 19.—(Reuters)—Britain will suspend export of certain machine tools ordered by Russia and other East European countries while she checks her own needs and those of the Commonwealth and Atlantic Pact powers, it was announced in the Commons yesterday.

The Anglo-Polish trade agreement of 1949 will also be reviewed because of "the changed circumstances," said Harold Wilson, president of the board of trade.

These promises were made after Conservative members again challenged the government on the supply of metal goods to "possible aggressors."

But Wilson said he could not

Trinidad Has Quiet Vote
PORT OF SPAIN, Trinidad, Sept. 19.—(CP)—Trinidad got a no-party legislative council last night when the results of her general election, quietest in the island's history, were announced.

The home rule party of Tubal Uriah "Buzi" Butler, the hymn-singing fanatic who started labor troubles in 1959, got six seats, the largest single group.

The Labor Party elected two men, including Raymond Quevedo, calypso-singer "Atila the Hut."

The Liberals and Socialists also elected two members and six independents were successful.

Besides the legislative council, the colony is ruled an executive body, with Governor Sir Hubert Rance at its head.

Election of Butler, self-styled chief servant of the British citizens and Workers Home Rule Party, poses something of a constitutional problem for political observers. It is assumed he will try to move the colony away from Britain.

Students Parade, Traffic Snarled In Saskatoon

SASKATOON, Sept. 19.—(CP)—Two University of Saskatchewan freshmen were held last night by police after more than 500 student-dancing students snarled downtown traffic for a half hour. The long line of students waited between parked cars, through a theatre lobby and slightly damaged a trolley bus.

It took at least five policemen, led by Police Chief Albert Milne, to break up the demonstration.

The police chief said the two students held are being "interviewed."

The parade drew out of a winter road, held as part of a welcoming word for university freshmen.

Greater Demand Seen for Engineers

TORONTO, Sept. 19.—(CP)—The Technical Service Council said yesterday that Canada will be seriously short of engineers if a war starts. It said the number of re-entrants for engineers was 58 per cent higher this August than it was in August, 1949.

The council, established by Canadian manufacturers as a clearing-house for job-seeking engineers, said in a report that the higher demand for engineers resulted from Canada's heavy industrial growth.

Annual rainfall in the Okanagan Valley of British Columbia averages less than 12 inches.

Indian Incidents

Most Edmontonians feel they might give the country back to the Indians providing the Indians let us keep Indian summer.

Animal destruction: If you want a kitten, see Agnes at the Gairford Hotel, Gairford. Agnes has four of the fluffy little things to give away.

Al Smith is to blame for this.

Lawyer Neil D. Maclean, K.C., has been in Edmonton for a long, long time. Saturday he found out something he never knew before. Mr. Maclean found out that if one looks east or west along Jasper avenue the Macdonald hotel looks to be right in the centre of the main drag.

Saying a friendly hello to all us working stiffs in the Bulletin newspaper last week-end was none other than Don Cronin, publisher of the Vancouver Sun, I suppose these Sun newspaper tycoons from out foggy west coast way have to come to Alberta just to get their sunshine.

Another big name in the newspaper world dropped up to see us yesterday. He is Arthur Helliwell, ace English news columnist.

Helliwell likes Edmonton fine but says he would feel more at home if there weren't so many Scotsmen here.

How do you like those potato items: Fred Teych grows spuds that are spuds in his garden at 10158-80 street.

Saturday, Fred dug into a hill and unearthed a potato weighing three pounds, 11 ounces.

Mr. Teych is doing just fine.

Mrs. Mary Kozienko phoned to tell me about this Guillevin spud. She was quite excited because she recently had a baby that weighed just four pounds, six ounces at birth.

What did the "lady" hotel clerk say to Edmontonian Johnny MacDonald after the Eskimo-Stamper game Saturday when Johnny suggested a new league with Stampeders, Okotoks, High River and Oids?

It is true that George Crissall of Edmonton Royal George and Calgary hotels is now claiming dual citizenship since that Stamper defeat?

Between breakfast kippers poached in milk, Pat Ashby writes about it at him and his son getting himself engaged on the Ashby holdings just south of the city.

It seems the Ashbys were having tea on the lawn when two bullets slipped their way.

Pat got his Irish up because he has signs posted around his lawn stating: "No shooting at the Ashby family between 4:30 and 6 p.m."

Pat's eldest son, Roy, is going to be married Saturday, Sept. 30 to Miss Shirley Harris of Hanna.

It's always good to hear from Pat and especially to learn that people are just shooting bullets at him now instead of sniping at him on a political platform.

A fond goodnight to all and especially to people who don't like to get shot at even if they are missed.

Alberta Air Survey To Be Ended By 1951

Almost all of Alberta's province-wide aerial survey will be completed by the end of October.

Oldsters See Variety Show

Edmonton's grandmas and grandpas "stepped out" to the Moose Temple last night to begin another year of activity with the Alberta Pensioners' Society.

Over 25 of the Society members were present at the first fall meeting, which consisted entirely of entertainment.

The entertainment included community singing under the leadership of Jack Jones, and a performance by a group of young Ukrainian dancers in their brightly-colored costumes.

The dancers were Diana Bayrock, Lena Pryma, Walter Hry, Chester Kuo, Marshall and Marvin Bayrock, Prof. Leo Turkewicz supplied music.

William Smith, accompanied his daughter Betty May, who sang many old favorites.

Movie film supplied by the Edmonton Chamber of Commerce closed the meeting.

President of the society, Edward C. Fisher, was master of ceremonies. Next meeting is scheduled for Oct. 16.

Car Shortage Idles Miners

BLAINMORE, Alta., Sept. 19.—(UPI)—A boxer shortage today idled 1700 coal miners in the Crow's Nest Pass area.

Last night, snow whistled through the valley, signalling to the miners that their services would not be required today.

Officials explained that the boxer shortage was caused by heavy rain shipments, and the shortage of freight which resulted from the recent nationwide rail strike.

About 60,000 schoolchildren in the B.C. branch have enrolled in school forestry club sponsored by the B.C. branch of the Canadian Forestry Association.

Club, Library Parking Area In Dispute

Edmonton public library board and the Edmonton Club share at least one problem—parking. Club and library have an interest in a parking lot between the two buildings since questions of Club members have been taking more than their fair share of the space. It is alleged, and the library's bookmobile, a converted bus, cannot maneuver in the driveway.

Concern was expressed at the public library board meeting last night in the library board room.

After suggestions ranging from "We'll just have to take off their fenders" to "let's chain our section off," it was decided to leave the matter in the hands of librarian H. G. Gourlay.

WAGE DEMAND Another important item on the agenda, a request by Miss Louise Marchant, children's librarian on behalf of Local 52 of the Civil Union for \$120 out of living allowance for 35 library workers. It was decided that union funds would be studied by the board before next month's meeting, when they will meet union officials.

Miss Pauline Racette was appointed to replace Miss Dorothy Thomson as semi-postmaster assistant at South Side library, granted leave of absence to attend to family matters. Miss Mae Reed replaces Mrs. Kathleen Linn in a similar position.

The board decided to elect permanent directing staff in various locations, the bookmobile at Indian River station.

Jasper Place To Consider Town Status

Taxpayers of Jasper Place village will meet in their new village hall tonight to discuss the question of becoming a town for the fast growing community.

Special meeting was called by village's first mayor, J. M. Stone, and the village council.

The date was announced at the first fall meeting of the Edmonton Trades and Labor Council last night.

P. Bearham and B. Engley were elected to represent the local council at convention, which will see union delegates from all parts of the province gather here for the federation's most important gathering of the year.

RESOLUTIONS Herbert Turner, general secretary of both the local council and the federation, said following last night's meeting the council's resolutions for presentation at the convention would be made public later this week.

The "No Communists Wanted" sign was prominently displayed at the recent Trades and Labor Congress of Canada convention in Montreal, Turner, who was a delegate to the national meeting, said.

In its most strongly worded pronouncement to date, Turner said, the congress served notice on all member unions that they would be "unwilling" to send Communists "to fellow travelers" as delegates to future conventions.

"They will not be seated," the congress warned.

South Side Track Turfed

Another link with the past has been severed.

At South Side Athletic Park city parks department crews yesterday started replacing the park's ancient natural horse race track with new turf.

Built by the city of Strathcona in 1904, the track has been a landmark of the old time track, but has not echoed to the hooves of speeding horses for many years, but in its day it was some fine pioneer racing, oldtimers recall.

A racing track was built for the track, and is partly excavated each season to make up to Edmonton's horse racing track.

Parks Superintendent A. C. "Sandy" Patterson said the old track was built by the city of Strathcona in 1904, and was a main playing field for soccer and other sports directly before the grandstand.

Removal of the track would add 30 feet of space to each side of the grounds, he said.

Two or three half diamonds will also be set up when the turfing job is done.

Plans call for fills at the track's banked corners, with grass seeding to cover the scars.

SOME COMFORTING WORDS

Tooth decay is on the way out. That's the good word brought here by Dr. Leonard S. Fodick, professor of chemistry at Northwestern University Dental School, Chicago, yesterday.

Dr. Fodick is to lecture at University of Alberta's refresher course in dentistry. Dr. Fodick had comforting words for hamsters' dental woes.

"Scientists and researchers know how decay is produced," Dr. Fodick declared. "And treatments are being made in combating the main instigator of all the pain and decay, which is sugar."

Sugar in the mouth mixes with saliva to produce enzymes causing decay, said Dr. Fodick.

Refresher and dental students are regarded as dental science's best weapons against dental decay.

Tooth Decay on Way Out, Chicago Professor Says

But chemists still face the problem of making dentifrices containing the protective antibiotics.

According to Dr. Fodick, scientific treatment to the gums and to dentures and other might be harmful if an antibiotic is injected in the body for other reasons, such as pneumonia.

"Too much penicillin in the body can produce disastrous results," he said.

Major experiments are in progress at Northwestern and other institutions, as scientists study the properties of some 75 elements which have proved effective, in one way or another, in fighting decay.

Asked if he knew of any way to prevent tooth decay, as things now stand, Dr. Fodick replied:

"There's one sure way. Cut out

—Photo by Scott

LUCKY PUP

FIRST CLAIM to cocker spaniel puppy, to be given away Saturday, at Better Homes Exposition, was made by little Adele Magers, daughter of Mrs. P. Magers, of Willingdon.

Adele said only thing her home needed was a dog, and she tried this cute one for size.

Alberta Labor Group Meeting Set for Oct. 9

The 30th convention of the Alberta Federation of Labor will be held at the Masonic Hall in Edmonton on Oct. 9 to Oct. 11.

The date was announced at the first fall meeting of the Edmonton Trades and Labor Council last night.

P. Bearham and B. Engley were elected to represent the local council at convention, which will see union delegates from all parts of the province gather here for the federation's most important gathering of the year.

RESOLUTIONS Herbert Turner, general secretary of both the local council and the federation, said following last night's meeting the council's resolutions for presentation at the convention would be made public later this week.

The "No Communists Wanted" sign was prominently displayed at the recent Trades and Labor Congress of Canada convention in Montreal, Turner, who was a delegate to the national meeting, said.

In its most strongly worded pronouncement to date, Turner said, the congress served notice on all member unions that they would be "unwilling" to send Communists "to fellow travelers" as delegates to future conventions.

"They will not be seated," the congress warned.

DON'T WHISTLE WHILE DRIVING

Whistling on the streets can cost a man \$5... if the whistling happens to come from his car.

James R. Onopchuk found that out yesterday in police court. He was charged with making too much noise with a "signalling device."

In this case, a whistle attached to his car muffler, which he used to signal his car.

Accused pleaded guilty and paid the \$5 fine imposed by Magistrate J. W. McCulla.

RCME Reserves Show War Role On Street

First street and Jasper was turned into a miniature battle field last night as Army Week opened in Edmonton.

The 30th Technical Squadron, Royal Canadian Electrical and Mechanical Engineers (Reserve) set up a mobile heavy workshop and opportunities in the Reserve forces. Recruits will also be accepted.

The Royal Canadian Regiment and the Royal Canadian Mounted Police will also be on hand to show the public what goes on at their workshop.

Interested civilians who mingled around the trucks and equipment were given first hand explanations of what was happening by Capt. C. Heath and other "Bemy" officers.

An information booth has been set up on the south-west corner for the benefit of the public. The men

Medicine Hat Man to Head Alberta Group

CALGARY, Sept. 19.—(CP)—The G. G. Elder, of Medicine Hat, was elected president of the Ophthalmological and Otorhinolaryngological Society of Alberta at the annual meeting here. He succeeds Dr. A. Fetter of Calgary.

Dr. A. Shore, of Calgary, was appointed vice-president, while Dr. M. Marshall of Edmonton and Dr. D. C. Sorell were re-elected secretary and treasurer.

Executive members are Dr. G. C. Wainman, Edmonton, and Dr. H. E. Dowling, Calgary.

Industrial Power Demands Boosted

Alberta's utility firms are having a tough job keeping pace with the power demands of the province's industrial expansion.

RCMP TO TRY TO BEAT CURE

Royal Canadian Mounted Police agreed today that "in case of prevention is worth a pound of cure."

They announced that twice weekly the barracks' gym here will be open to underprivileged children from two city orphanages for instruction in gymnastics and rifle shooting.

Police said they hoped this would aid the battle against juvenile delinquency.

Elks Re-Elect G. Robinson

Whether George Robinson knew it or not, he has been re-elected Elks' ruler of the Elks Club Number 11 for the 1950-51 term.

Mr. and Mrs. Robinson are now on a tour of Ireland.

Elections were held last night (without Mr. Robinson) in the Elks' Lodge.

Others elected were Arnold Entwistle, leading knight; Clayton Rand, loyal knight; Bob Decker, treasurer; John Sawyer, secretary; Frank Dryden, treasurer; Joe Lebaron, inner guard; Bill Krause, tire, and Bob Gorn, three-year trusty.

S. P. Deuchinsky, past master, was elected, officiated, while G. R. Stuart was assistant installing officer.

ETS Motorman Escapes Tramp Before Crash

An Edmonton Transit System motorman escaped serious injury Monday morning when he fled the front vestibule of his street-car seconds before it was crushed to matchwood.

A heavy gravel truck, reportedly driven by George Hopenan, 801-14 street, turned west across the street's path and came into collision with the front of the car. The car vestibule was ripped out by the impact.

Both the truck and the street-car, piloted by Motorman Gordon Kines, were on the 14th street at the time, Kines was unhurt.

Book Papers Expert, Author Dies In U.S.

BEVERLY, Mass., Sept. 15.—(AP)—Mrs. Rosamond Bowditch Loring, noted designer of book papers and author of the subject, died Sunday, Mrs. Loring, wife of the philanthropist, was the author of "Marble Papers," and "Decorative Book Papers."

EDMONTON BULLETIN, Tuesday, Sept. 19, 1950 11

Photo by Scott
JUST THE THING for our new house, says Mrs. G. D. Cameron as she admires the latest combination sink, clothes-dish-washer, at Edmonton's Better Homes Exposition, opened yesterday. From Trenton, Ont., where they are building a new home, Mr. and Mrs. Cameron were most impressed by latest labor-savers.

Homemakers' 'Want' List Expands at Exposition

With the first nip of frost already in the air, and Thanksgiving just around the corner, "Things I want for Christmas" time will soon be upon us. And any unsuspecting spouse who scurries his lady to the Better Homes Exposition can expect a long list, come yule log season.

Veritable hoards of household efficiency will be the kitchen equipped with a sleek new automatic sink, containing a built-in clothes and dish washer, blue Monday is banished for ever with a flick of the switch.

HOUSEHOLD HELPERS

Buzzing vacuum cleaners, washers with steam-lined chassis, and

Scots' Mom' Visits Here

Edmontonians have time to be human says Mrs. Ella Bailey one of the world's foremost authorities on Scottish Tartans, who has recently arrived from Toronto.

"At last I feel I'm at home," said Mrs. Bailey, nothing is too much trouble for the people of this city. During the Second World War, Mrs. Bailey was "Mum" to thousands of Canadian servicemen, whom she welcomed to her gift shop on Edinburgh's Princess street.

Her arrival in Canada two weeks ago, to operate a concession at Canadian National Exhibition, proved her "new ladies" had not forgotten her. She is continually receiving scores of letters and telephone calls from boys she entertained during their stay in Scotland.

She often closed her shop to show Canadians around Edinburgh's historic spots, turned her apartment over to men recuperating from malarious, or lent them money when they were "broke".

And who, most important of all, gave advice and encouragement to the lonely boys.

Mrs. Bailey will leave Edmonton Thursday morning for Vancouver, where she will meet more of her war-time friends.

JUST-WEDS Mr. and Mrs. A. R. McKee are making their home in Edmonton. Bride is the former Eleanor Krause.

Couple pleaded vows recently in Vermilion and came to take up residence here following their honeymoon.

You can tell a good eating place when you see this famous bottle within reach

Compare the big 15-ounce bottle with the smaller ones on the shelves and you'll find it's the best selling ketchup.

Zonia Lazarowich Packed Trainings, Sight-Seeing, Into Three Years Abroad

Fairy tale holidays in an Irish castle and enchanting days in Paris helped to lighten study-filled days of Zonia Lazarowich, brilliant young Edmonton violinist.

She has returned to her home after three years of study at the Royal College of Music, London, England.

Social Whirl

WEDDING BELLS pealed from Phoenix, Arizona, to announce the marriage of Eric A. Bland and Eleanor E. Hray which took place at Trinity Cathedral Sept. 15 at 2:30 p.m.

Rev. Dean J. W. Carman of Phoenix performed the ceremony.

Attendants were Miss MacSharnille of Phoenix and Robert Crowley of Cincinnati, Ohio. Bride is daughter of Mrs. Constance Bray of Alexander, Man.

Grade Seven Girl Wins Art Award From IODE Chapter

IODE scholarship award of \$50 will be presented to Carol Gabelhouse, 1060-125 street, Sept. 20.

This was announced by Earl of St. Andrew Chapter, sponsors of the Golden Jubilee Scholarship in Art which was won by Miss Gabelhouse.

A grade seven student at Westmont Public School, Miss Gabelhouse entered her picture "The Storm" in spring.

Jessie Backstrom Feted Bride-Elect

Popular bride-elect of Saturday in Miss Jessie Backstrom, who has been widely entertained at showers recently.

Women of the King Edward Park, Church of Christ, honored Miss Backstrom at a miscellaneous shower, when gifts from 21 guests were presented to the bride-elect.

Mrs. A. Trankell decorated the hall for the occasion with pink and white streamers.

Mrs. A. Myers, poured. Fifteen guests were received at the home of Mrs. A. Gibson when a decorated basket of gifts was presented to Miss Backstrom.

Inflated balloons held clues as to the whereabouts of gifts, when Miss Shirley Ball entertained recently. About 20 guests honored the bride-elect, whose marriage to Roland Deacon takes place in the Church of Christ, Saturday, at 7:30 p.m.

BEDECKED in traditional lei of Hawaii were Mr. and Mrs. T. Riley of Edmonton, who they arrived in Vancouver recently, aboard CPA Empress of Sydney.

Mr. and Mrs. Riley spent a week holidaying in Honolulu, Mr. Riley's district post office inspector for Edmonton.

...No other fabric can surpass our fine worsted flannel for wear, for flattery, for value. Here is fabric that drapes beautifully, yet holds its line when tamponsily tailored—line ideal suit fabric.

We have it in soft browns, blues, greys and fawns—in stripes and plaids.

See them all at Tip Top Tailors. Choose your favourite. Have your fall suit, flannel suit or tailored to your personal measurements... a suit that reflects your taste and individuality because it is created for you alone.

Alaskans Target For Reds' Requests

Chinese Communists Attempt New War-Effort Scheme

ANCHORAGE, Alaska, Sept. 19.—(AP)—Postcards bearing the new stamps of Communist China are being received here with requests for industrial tools to further the war effort in Red China.

Mailed from the Communist stronghold of Tientsin, the cards are addressed to hardware stores and automotive supply firms.

Printed in English, beneath the letterhead of the North China Import Corporation, the message requests "reference material."

Specifically it seeks "catalogues or bulletins on industrial tools and small tools" along with samples and discount charts. In addition the message asks that the Corporation be put on the merchant's mailing list.

"They must be extremely short of tools," remarked one dealer who received a card.

ANYONE'S GUESS That the cards are apparently smuggled from Red China to Hong Kong is evidenced by a footnote to the message explaining that replies can be sent in care of the Wu Yang Trading Company at Hong Kong "whence it will reach us by the first available opportunity."

How many cards have been sent out is anybody's guess. Dealers who received them here felt it was an attempt by the Communists to obtain even small amounts of materials to rebuild their industry.

Others feel it is an attempt to glean information from Alaska and regard it as out and out espionage.

The chief United States delegate to the United Nations made the declaration last night as he received the outstanding citation award of 1950 from the Disabled American Veterans of New York at Madison Square Garden.

London In Peril From Gas Strike

LONDON, Sept. 19.—(AP)—More than half of gaspiping London was warned last night its gas pressure will be reduced, because of a strike of 13,000 gas works employees.

The men stopped work after receiving an increase equivalent to two cents an hour. They are asking six cents.

U.K.-Brazil Trade

LONDON, Sept. 19.—(AP)—Brazilian and British exchange notes yesterday calling for British exports of goods valued at £3,160,000 in addition to petroleum products was given away before he died last night.

Times Lauds Canada's International Moves

LONDON, Sept. 19.—(Reuters)—The Times today claims Canada for her support of the United Nations and the Atlantic Pact by practical measures.

The Times says Canada has shown her people were ready to act with the decisiveness of a great power and that the Commonwealth and the rest of the free world could find encouragement in this.

"If (Canada's) position, as the neighbor of the United States and the sister nation of the United Kingdom, gives her a peculiar influence in international affairs," the Times says in an editorial.

"In this field Canada's leaders have in the past had to act with caution."

"French Canadians, cut off from their European roots, have been traditionally isolationists; even after the start of the Korean war familiar arguments against co-operation with the United Nations were raised in Quebec."

DRAMATIC CHANGE

"But when, in the first week of August, Mr. St. Laurent announced that the government had authorized the recruitment of a special force, which would be available for service in Korea or elsewhere if the United Nations needed it, he knew that public opinion would uphold the decision."

"The countries of the old world have seen, in the last 10 years, a dramatic change in the attitude of the North American people on question of foreign policy."

"Canada, relatively so small, potentially so great, has shown again that her people are ready to act with the decisiveness of a great power. In this fact the Commonwealth—and indeed the rest of the free world—can find encouragement."

COAST BEAUTY TO TRY TUNA

HALIFAX, Sept. 19.—(CP)—Miss Kathleen Calhoun, 17-year-old Nova Scotia, is going to take on a man's job when she visits Nova Scotia this weekend.

She is going to have a whiff at tuna fishing against the odds. She has a halibut, some bait and a fishing license. She is going to try to catch a tuna.

World-Wide Chinese Group Supports Chiang

TAIPEI, Formosa, Sept. 19.—(AP)—A man claiming leadership of 300,000 guerrillas in South China has pledged full support to Chiang Kai-Shek in his plan to recover the Chinese mainland.

The man was identified today as the defense minister as Ke Chiao-Hung, one of the leaders of the Hung Men (Flood Gate) Society, a powerful Chinese organization with a worldwide membership of about 300,000.

The defense minister said Ke Chiao-Hung sent a representative to Formosa to assure the Nationalist government of his full support in the struggle against the Chinese Communists.

The Hung Men Society was founded about three centuries ago by Ke Chiao-Hung, who fought for his cause, fought for his cause, fought for his cause.

He fought for his cause, fought for his cause, fought for his cause. He fought for his cause, fought for his cause, fought for his cause.

He fought for his cause, fought for his cause, fought for his cause. He fought for his cause, fought for his cause, fought for his cause.

'Poor Man's Law Charter' Begins Oct. 2 In Britain

LONDON, Sept. 19.—(Reuters)—The poorest Briton soon will be able to take a case into the land, and let the court decide.

Under a so-called legal plan, which starts Oct. 2, the state will foot the bill for carrying a civil case to the high court and the court of appeal. But the new law—known as "the poor man's law charter"—stipulates that in actions of libel, slander, seduction and breach of promise, the citizen is strictly on his own.

The scheme, which marks the latest development in the country's widespread social services, is expected to benefit Britain's poorest 12,000,000 persons—about one-quarter of the country's population.

When the plan is in full operation, the government will be prepared to back both sides financially—plaintiff and defendant—in a genuine civil case.

TO PRIVY COUNCIL Facilities will be available for suit to be carried all the way to the judicial committee of the privy council.

For this time being, a litigant must continue to pay on his own way through the lower and less costly courts.

On an appeal to the higher courts, litigants will be entitled to counsel free on at reduced rates on a sliding scale, depending on the individual's income.

Later, when Britain's financial position eases, this will also apply to suits in the lower courts and to criminal cases. A system of state-run legal-aid centres will also be established.

Bushido was the code of honor of the Japanese Samurai, or military class; it corresponds roughly to the code of chivalry in Europe.

Credit-Buying Controls Forecast for Next Month

OTTAWA, Sept. 19.—(CP)—Credit controls on installment buying may be brought into operation before the end of October, informed quarters disclosed today.

It was indicated that the government now is talking to the possible credit curbs with various industries, department stores, and retailers with the view of preparing regulations during the next few weeks.

At the same time a Prices Board official has been dispatched to Montreal and Toronto to feel out finance corporations on tightening up loans to finance new cars.

Finance Minister Abbott's officials are expected to present him with a complete report. Regulations then are expected to be prepared "without delay."

Authority to effect controls was given the government during the last session of parliament.

Drugs and food rationing by discouraging people from buying, the credit regulations are expected to be drafted on a "general pattern" of those in effect during the Second World War.

However, there will be several changes, including the maximum amount of goods which can be purchased under the installment plan.

During the war, the regulations specified: a maximum of six months' credit for wearing apparel; a 12-month credit period for other goods, valued at less than \$500; a 12-month credit period for goods valued at more than \$500.

At the time time a Prices Board official has been dispatched to Montreal and Toronto to feel out finance corporations on tightening up loans to finance new cars.

Warren Austin Given Award

NEW YORK, Sept. 19.—(AP)—Warren R. Austin said "aggression shall end in Korea, and it shall be noted to all the world that the way of the aggressor is hard."

The chief United States delegate to the United Nations made the declaration last night as he received the outstanding citation award of 1950 from the Disabled American Veterans of New York at Madison Square Garden.

London In Peril From Gas Strike

LONDON, Sept. 19.—(AP)—More than half of gaspiping London was warned last night its gas pressure will be reduced, because of a strike of 13,000 gas works employees.

The men stopped work after receiving an increase equivalent to two cents an hour. They are asking six cents.

Times Lauds Canada's International Moves

LONDON, Sept. 19.—(Reuters)—The Times today claims Canada for her support of the United Nations and the Atlantic Pact by practical measures.

The Times says Canada has shown her people were ready to act with the decisiveness of a great power and that the Commonwealth and the rest of the free world could find encouragement in this.

"If (Canada's) position, as the neighbor of the United States and the sister nation of the United Kingdom, gives her a peculiar influence in international affairs," the Times says in an editorial.

"In this field Canada's leaders have in the past had to act with caution."

"French Canadians, cut off from their European roots, have been traditionally isolationists; even after the start of the Korean war familiar arguments against co-operation with the United Nations were raised in Quebec."

DRAMATIC CHANGE

"But when, in the first week of August, Mr. St. Laurent announced that the government had authorized the recruitment of a special force, which would be available for service in Korea or elsewhere if the United Nations needed it, he knew that public opinion would uphold the decision."

"The countries of the old world have seen, in the last 10 years, a dramatic change in the attitude of the North American people on question of foreign policy."

"Canada, relatively so small, potentially so great, has shown again that her people are ready to act with the decisiveness of a great power. In this fact the Commonwealth—and indeed the rest of the free world—can find encouragement."

Hopes for 2 Oil Fields Fade As Well Comes In

(By C. V. Myers)

Central Leduc Wild No. 1 which came in over the weekend has provided information which pretty well links Imperial Stony Plain and Cui Standard Acheon No. 1 as one of the same oil field, and therefore one oil field.

Central Leduc No. 1 hit the D-3 three feet higher than Imperial Stony Plain. Imperial got six feet of productive D-3 while Wild No. 1 presumably got nine.

It is about a mile and three-quarters to the north and east about 100 miles from each other to the south and west of Acheon.

With reef joined over a spread of four miles the question is how far the Wild and Stony Plain wells reach the eastern edge or the western edge.

FIELD WOULD DIE In the first case the field would lie to the west of a line passing through Stony Plain and slightly east of Acheon with a sharp drop off remainder of the Leduc east.

In the second case the field would lie far forward as it might extend. Since the California Standard and Imperial pools are nearly all to the east it may be assumed that these companies have figured the new reef in this manner.

Since there is no well control to the west, the east-west theories the question will have to await the drilling of more wells.

Much of the money was from the "public treasury," he pointed out. "And that leaves the dentist and the physician to be paid for special responsibility to the public."

He urged his listeners to show their appreciation of the "dentist" by faithful service and by doing their best to apply lay knowledge available in the field.

He cited the dentists' fund for post-graduate scholarships as an example of the principle he had in mind.

3 Top Officials Of Sun Life Pay Visit Here

Three top executive officials of the Sun Life Assurance Company of Canada Ltd. are in Edmonton visitors on the way east for a company conference at Jasper.

They are J. S. H. Pemberton, assistant treasurer; J. A. Gray, president of mortgages and G. E. Brown, personal executive, all of the Sun Life head office in Montreal.

More than 800 American and Canadian agents and officials of the company attended the conference of Sun Life Agencies held in Jasper last week.

Eight Edmonton agents attended the conference. They are the top Montreal officials are conferring with Edmonton branch manager R. A. Crowe.

The new wells bring Leduc's field total to 339 and Redwater's to 836.

Americans Spending Faster Than Saving

WASHINGTON, Sept. 18.—(UPI)—Americans are expected to spend more than they save in 1950, according to a report by the Federal Reserve Board.

The report says that Americans are expected to spend \$100 billion more than they save in 1950, compared with \$80 billion in 1949.

The report also says that Americans are expected to spend \$100 billion more than they save in 1950, compared with \$80 billion in 1949.

The report also says that Americans are expected to spend \$100 billion more than they save in 1950, compared with \$80 billion in 1949.

British Airlines Worry Over New U.S. Setup

WASHINGTON.—(AP)—The British government yesterday was deeply concerned that a fourth international airline, the new U.S. setup, may result in top-heavy competition from United States.

The new setup is scheduled to go into effect when Pan-American World Airways starts a new American Overseas Airlines.

British anxiety was disclosed by an official privately told that the British government was deeply concerned that a fourth international airline, the new U.S. setup, may result in top-heavy competition from United States.

The new setup is scheduled to go into effect when Pan-American World Airways starts a new American Overseas Airlines.

Winspear Urges Post For Cabinet

VANCOUVER, Sept. 19.—(CP)—Francis Winspear of Edmonton yesterday advocated a ministry of supply in the federal cabinet to handle defence procurement and industrial mobilization.

He is the newly-elected president of the Canadian Chamber of Commerce, and is discussing national defence problems with the Vancouver Board of Trade.

"This is no time for sidelines—no time for half measures in carrying out industrial mobilization. One minister must be charged with this single job."

Mr. Winspear reviewed last week's statement of policy drafted at the annual convention of the Chamber of Commerce in Banff. It urged co-operation with the United States and an immediate declaration to govern industrial mobilization.

DEVELOP NORTHLAND
He said businessmen are vitally interested in the defence and expansion of northern Canada, particularly the Yukon, northern British Columbia and Alaska.

It is in the north that our territories are contiguous with the aggressor. It is in the north countries of Alaska and the Yukon that one of the pathways of aggression lies.

Correspondents Hurt In Korea

THE INCHON BEACHHEAD, Korea, Sept. 19.—(AP)—Three war correspondents were injured yesterday in the collision of their jeep and another vehicle.

They are John Davies of the Newark, N.J., Daily News, Jim Bell of Time and Life magazines, broken arm and chest injury, and Laurence MacDonell of the London Daily Mail, cut over one eye, and leg injury which laid him out for some time.

Britain and U.S. To Talk Treaty

LONDON, Sept. 19.—(Reuters)—Britain and the United States will discuss the possibility of a Japanese peace treaty in Washington this week, it was learned yesterday.

Britain is opposed to the reconstruction of a Japanese military machine. The United States said it would not be opposed to Japanese rearmament.

Newspaperman Dies

—LAST ORANGE, N.J., Sept. 19.—(AP)—John P. Cookley, 69, former Washington correspondent of the old Newark Star-Eagle and the Toledo Blade and financial editor of the Newark News, died at his home here yesterday. He had been ill several years.

THE DOCTORS SAY:

Nothing Beats Salt Water If You Feel Like a Drink

NEW HAVEN, Conn., Sept. 19.—(AP)—Take a drink of salt water when you reach the stage of really craving alcohol, say two New York doctors who have made a study of the problem.

Because, it is explained, your body is really craving salt, even though your palate says alcohol. There's nothing imaginary behind this sensation, the study indicates. It's a purely physical reaction which boos your senses.

The study is reported by doctors W. D. Silkworth and M. Traub of the Knickerbocker hospital, New York, in the quarterly Journal of Alcohol. They analyzed the blood of persons who

had been drinking heavily enough to be sent to hospital. In all cases they found the salt (chloride) reduced.

"The alcoholic," they report, "in the early stages of a drinking bout drinks as a result of psychological or environmental factors. At this voluntary stage the blood chloride are not significantly altered."

"When the drinking continues to the point of a lowered blood chloride, the sensation of thirst evokes an abnormal response. Instead of salt and water, the alcoholic continues to take liquor. The stage of uncontrolled drinking has been reached."

"He takes more whiskey and water to replace the loss of water and salt. Thus, he does not replace his salt, but perhaps satisfies his pharyngeal thirst sensation. The pharynx is the part of the throat where the thirst sensation is felt. This further exaggerates the thirst and perpetuates his craving."

The recommended salt drink, says the report, is two grams of salt in 30 cubic centimetres of water, followed by a 200 cubic centimetre of water. Or a small teaspoonful of salt in a little more than an ordinary glass of water.

"A class in action and learn what the Dole Carnegie training can do for you."

This coupon will bring you, without obligation, an interesting booklet giving full information regarding the Dale Carnegie Course. Reserve a place for me at the Demonstration Meeting ☐ No Personal Solicitation.

A special General Motors-Dale Carnegie Course is now being offered to all General Motors salaried employees. 40,000 such employees throughout the United States will eventually be afforded the opportunity to take this course. Why don't you follow General Motors' example and reserve yourself and your employees for effective leadership through the Dale Carnegie Course?

Modern Society's Materialism Hit

Man Lonely In the Midst Of Crowds Says Church Report

TORONTO, Sept. 19.—(CP)—A special committee of the United Church of Canada has condemned what it calls the materialism and irresponsibility of modern society.

In a 100-page report prepared for study by church groups and clergymen, the committee says that modern man is lonely in the midst of crowds; has outgrown old standards and now has nothing to use as a guide and has amassed scientific knowledge at the expense of a sense of morality.

The report was prepared by a special committee on culture, set up four years ago to study the relation between Christianity and modern culture. The committee comprised ministers, clergymen and laymen.

"BANEFUL INFLUENCE"
The report claimed that "American paganism is having a baneful influence on Canadian culture. The evil impact of a glorified American way of life which we are too prone to imitate, breeds ill for our moral and social well-being."

Only through a steadfast belief in God could man's "fear, anxieties and worries be eradicated."

Because press and radio have become "powerful agents in the shaping of our destiny," professional ideals and attitudes are needed by journalists.

"The kind of training a journalist needs must today be not training in the tricks and machinery of the trade—if he is to be a competent guide of public affairs, he needs the broadest and most liberal education."

Dairy employees will get a 33-cent increase and farmers are to be paid an additional 12½ cents per 100 pounds of milk, raising their return to \$420 a hundredweight.

ST. EXTENDED
TORONTO, Sept. 19.—(CP)—City council today approved extension of daylight saving in Toronto to Nov. 26. The move is intended to help the power situation.

gram to help underdeveloped areas. Along with these recommendations for direct grants, there is a reported suggestion that the United States be prepared to lend \$500,000 to \$600,000 dollars annually for the next eight years to countries in the western camp. The money would come from the government's Export-Import Bank, and from the World Bank where the United States has the main voice.

DAUGHTER KILLED, FATHER SUICIDES
LOS ANGELES, Sept. 19.—(AP)—A father shot and killed his 21-year-old married daughter, police said yesterday, because she was too sweet to leave alone in this big round world without her daddy.

Then he turned the gun on himself. Dead are Mrs. Irene Costello and her father, Joseph Chavez, 45.

SEARCH ABANDONED
HAWAII, Sept. 19.—(CP)—Search for a missing world-famous boat and her six crew members was abandoned last night. Aircraft and ships covered a wide area off southwestern Nova Scotia without finding a trace of the 34-foot Sirocco, which disappeared last Tuesday as a hurricane whipped along the Nova Scotia coast.

CORRESPONDENT GETS WOUNDED

WITH THE U.S. 34th DIVISION IN KOREA, Sept. 18.—(AP)—A New York Times war correspondent, Harold Faber, 31, was wounded slightly in the left leg by a mortar shell.

Faber was returning from a Nakdong River beach where U.S. 34th Division troops had jumped off on a crossing when he was pinned down on flat sand by North Korean machine-gun and mortar fire.

A few minutes later he made a run for safety. He was hit within a few feet of a relatively safe bank.

Kington Editor Dies In Hospital At Age of 82

KINGSTON, Ont., Sept. 19.—(CP)—William Robert Givens, 82, for 20 years publisher of the Kingston Daily Standard and former president of the Whig-Standard, died in hospital today.

After training in Kingston he worked on newspapers in Niagara Falls, Syracuse, Rochester, Buffalo, Jersey City and New York.

Following his retirement from the New York Times, he returned to his native Kingston and bought the Standard.

In 1908 he sold the Standard to the late H. B. Muir, who consolidated the daily papers in Kingston with W. Rupert Davies, publisher of the British Whig. Mr. Givens became president. In 1931 he retired.

He started the trip as a correspondent here but heavy frost had damaged wheat and other grain crops and left up to 50 per cent below milling standards.

Federal agricultural officials said there were indications that most of the frost-bitten, late-season wheat was good for little else than feeding to hogs. They said some farmers were considering plowing their crops under the ground because reaping would leave them out of pocket.

Gardiner had a personal as well as official interest in the problem. He operates a farm at Lemberg, Sask., and said he planned to look over his own holdings during the trip, which probably would last for several weeks.

This year's crop was two to three weeks late. Sprouting plating was delayed by cold weather, and heavy rains which contributed to the disastrous Red River floods, fell from early in the season.

The highest mountains in Africa are in rugged areas where, in addition to low clouds and winds of gale force.

Gardiner's Off to See Frost-Hit Wheat Fields

OTTAWA, Sept. 19.—(RUP)—Agriculture Minister James G. Gardiner headed for the prairies today to see if the government could help grain farmers before they start plowing their crops into the ground.

He started the trip as a correspondent here but heavy frost had damaged wheat and other grain crops and left up to 50 per cent below milling standards.

Federal agricultural officials said there were indications that most of the frost-bitten, late-season wheat was good for little else than feeding to hogs. They said some farmers were considering plowing their crops under the ground because reaping would leave them out of pocket.

Canada's Finest Cigar

PANTELAS PERFECTOS LILLIES

Equipment made of Nickel alloys is used in handling and canning fish and other sea food because sea rust-proof, sanitary and stands an immense amount of wear.

Forty-three years of research have uncovered hundreds of uses for Nickel in the United States and other countries. Now Nickel exports bring in millions of U.S. dollars yearly. These dollars help pay the wages of the 14,000 Nickel employees in Canada and also help pay Canadian railwaymen, lumbermen, iron and steel workers and other men and women making supplies for the Nickel mines, smelters and refineries.

Trolling lines of "Z" Nickel wire are being used more and more because they are tough, rust-proof and easy to reel in. Fish hooks and tackle made of Nickel alloys are strong as steel, and resist corrosion even in salt water.
